Flame Weeder Backpack: Instructions for Use

7030 E 46th Avenue Dr, Denver, CO 80216, United States
support@hensleyseeds.com | hensleyseeds.com

1. Backpack can be used with a 1 gallon or 2.5-gallon propane tank (5–11 pound cylinder). Place your tank into the backpack, orienting the Top Tank Ring so that the three holes in the Top Tank Ring align with the carabiners on the backpack. Secure the carabiners to the propane tank. Fig 1.

2. Buckle the two straps around the propane tank, making sure to pull the loose ends of each strap to tighten securely around the tank.

3. Place your arms through the shoulder straps and adjust the length of each should strap as necessary to ensure a secure fit.

4. Buckle the hip strap, making sure to pull the strap snug.

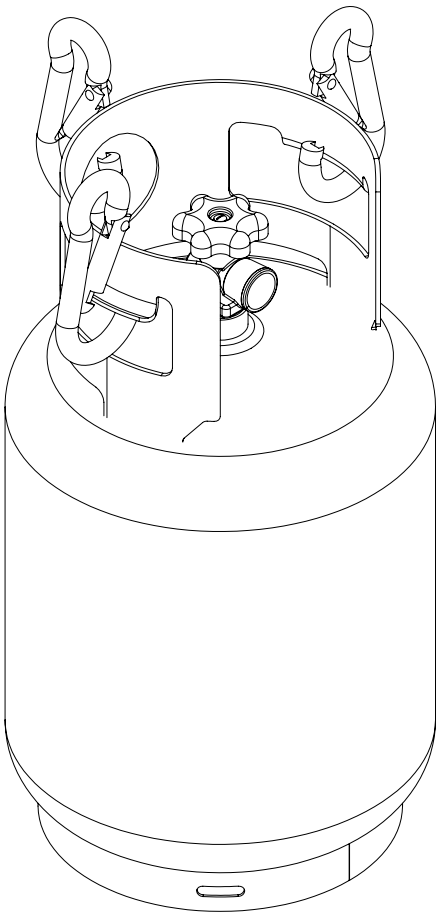

Fig. 1

Please read and follow all safety instructions for your flame weeder before use.
