* Round seed hole size indicated; alternate shapes are noted.

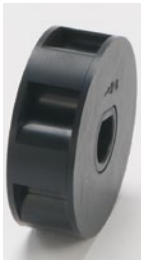

** Spacings are approximate; always test your seeding rates and adjust as necessary. In-row spacing is determined by # of holes in roller and adjustments to gearing ratios.

*** The terms "small", "medium", and "large" refer to the seed size.

The chart above includes spacing ranges and crop recommendations. NOTE: There may be multiple rollers that will achieve the same in-row spacing for a crop. Example: You can sow small-seeded beets at 4" spacing using either an LJ-6 or LJ-12 roller.

Seed Roller Packs

Seed Roller Starter Pack 7024
Includes one of each Jang roller: X-24 (brassicas, baby greens, and raw onion), F-24 (radish), LJ-12 (raw beets, size #13 pelleted beets, carrots, lettuce, and onion), XY-24 (raw carrots and lettuce), and N-6 (small beans and corn).

Baby Leaf Seed Roller Pack 6931
Includes one of each Jang roller: Y-24, X-24, F-24, and XY-24 for seeding Asian greens, mustard, arugula, raw lettuce, and more. NOTE: We recommend setting your seeder gears to seed at 0.5″ apart for the ideal seeding density.

Spinach Seed Roller Pack 7519
EXCLUSIVE! Includes one of each Jang roller: MJ-24 and L-24. Sows approximately 2–3 seeds per drop at your desired spacing between 0.5–2.5″ apart for seeding baby leaf spinach.

Sunflower Seed Roller Pack 7959
Includes one of each Jang roller: AA-6, C-6, and G-6. Sows approximately 2–3 seeds per drop at your desired spacing between 4–10″ apart.
