Rollerhook® Instructions

7030 E 46th Avenue Dr, Denver, CO 80216, United States
support@hensleyseeds.com | hensleyseeds.com

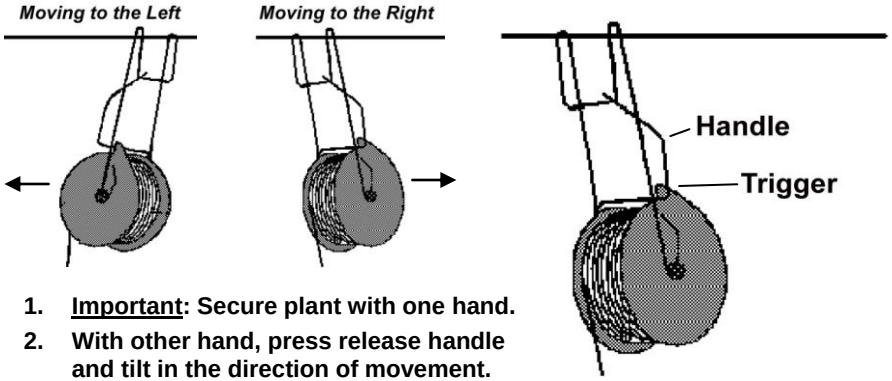

This product is designed to easily clip over greenhouse wire and let out extra twine and slide down the wire as needed to allow the user to lower and lean trellised vine crops, such as tomatoes and cucumbers.

Rollerhook® is rated for a max capacity of 22 lb./10 kg and has an expected life of 3 seasons.

Orientation is important to the operation of the Rollerhook® and care must be taken when releasing extra twine when lowering, to prevent damaging plants. Please see below.

Lower and Lean Operation

1. **<u>Important</u>: Secure plant with one hand.**
2. **With other hand, press release handle and tilt in the direction of movement.**
3. **Let go of the release handle at the desired wire position and plant height.**
4. **Always leave at least four wraps of twine on the spool.**

*****NEVER RELEASE TWINE TO ITS END*****
