CAREFULLY FOLLOW THESE INSTRUCTIONS TO AVOID TANGLING YOUR TOMAHOOK LINES

1. Open box from the top, being careful not to shuffle the Tomahooks inside. Note: You may want to place the box at waist height on a dolly or rolling cart so that you can move it with you as you hang your Tomahooks.

2. You will notice the twine for each layer of Tomahooks is neatly bundled in a figure-eight. Grasp the top of one figure-eight loop of twine and pull it out of the box, being careful not to hook it onto the Tomahooks below.

3. Drop the loop of twine toward the ground. Check to ensure that the figure eight loop is entirely unraveled, untangled, and hanging freely out of the box. Repeat with the second figure-eight loop of twine.

4. Working from one side of the box at a time, pick up each Tomahook with twine one by one and hook onto your overhead support wire.

5. Once all your Tomahooks are hung, walk back through the greenhouse and attach the bottom of each hanging piece of twine loosely to a plant.
